    Use water spray to cool fire-exposed containers.
    CO₂, sand, extinguishing powder. Do not use water.
  - **Special hazards arising from the substance or mixture:**
    Closed containers may explode when exposed to extreme heat.
    If incinerated, product will release the following toxic fumes: Oxides of Carbon and Nitrogen Oxides (NOₓ).
  - **Advice for firefighters:**
    Certain variations of this gas mixture are flammable. Use caution.

### 7 Handling and Storage

- **Handling**
  - **Precautions for safe handling:**
    Ensure good ventilation/exhaustion at the workplace.
    Open and handle receptacle with care.
    Be aware of any signs of dizziness or fatigue; exposures to fatal concentrations of this gas mixture could occur without any significant warning symptoms due to the potential for oxygen deficiency (simple asphyxiation). Do not attempt to adjust, repair or in any other way modify the cylinders containing this gas mixture. If there is a malfunction or another type of operational problem, contact nearest distributor immediately.
  - **Information about protection against explosions and fires:**
    Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.
    Do not cut, grind or weld on container that contains or contained product.
    Do not spray on a naked flame or any incandescent material.
    Keep ignition sources away - Do not smoke.
